

Youth Groups

A youth group is any group with participants under the age of 16.

Youth groups will receive a discount for the first 10 flyers and a reduced rate for the balance.

Youth groups must meet the following requirements in order to launch with ROC and receive the discount rates:

1. Youth groups must register a minimum of 2 weeks prior to the launch.
2. Youth group leaders must arrive and check in at the registration table before 9 am on the day of the launch
3. Youth groups must provide at least one range helper for each 10-youth registered. Range helpers will assist with one of the following duties (as indicated in the youth group registration form):
 - Range Setup: Arrive by 6:30 AM (for single-day launches) on the day of the launch to help setup the range.
 - Range Tear down: Arrive at the registration table just before range closure.
 - Range Helper: Adults with previous rocketry experience may assist with range duties commensurate with their experience levels.
4. Range duties for each youth group volunteer will be confirmed via email by the ROC Youth Coordinator the week before each launch.

ROC as a volunteer organization provides the equipment and services to launch rockets. The group is expected to follow all the posted rules, sign waivers and to supervise their group. Failure to do so will either shut down the launch or have the group be asked to leave.

Youth groups are limited to the 1st 100 youths that sign up per month. This is on a first registered basis. There are no youth group discounts for ROCstocks or other special events.
